

1. Website www.minerva-boskovice.com

Technical details of the currently produced DA shoemachines are to be found at our website www.minerva-boskovice.com where it is possible – in addition to further information - to download all technical documentation free of charge (e. g. catalogs of spare parts, service instruction manuals, other manuals) both for new machines and machines already discontinued.

Thank to this documentation, every order of spare parts and every service operation on the DA shoemachines is much simpler.

2. New Flyers

The website, Download section, has currently been completed with new flyers of the sewing machines with the direct drive. These are flyers of 887-M flatbed machines with material trimmer, which are used in automotive; other flyers are those of the sewing machine of 838-M type and zigzag sewing machines of 523i/524i/527i types.

All flyers are published in DE / EN language versions, and they will be soon available in hard copies too.

3. Direct Drive for DA Shoemachines

All DA shoemachines are available in the direct drive version.

The reason of the introduction of direct drives with a DAC control is to supply companies with simple and reliable drive units with other useful functions at competitive prices.

We have prepared for you and your clients further information about these drives, which is available at the following link:

<http://www.minerva-boskovice.com/dmp/printflo/content/18/17/news.aspx>

STAY STEP AHEAD WITH DA SHOEMACHINES EQUIPPED WITH DA DIRECT DRIVE !

4. DA Shoemachines on SIMAC Fair 2013

Between 8 – 10 October, 2013 , a traditional trade fair SIMAC will take place in Bologna, Italy, which is organized for producers of shoemachines and shoe-making equipment. MINERVA BOSKOVICE, a.s. will exhibit the DA shoemachines in the hall 32, booth C12.

The following sewing machines will be presented at the booth:

Newsletter

- 888-167122-M postbed machine with an oblique material trimmer for stitching and trimming of shoe lining **NEW**
- 884-150152-M postbed machine with a narrow post, suitable for children's shoes sewing
- 887-363522-M flatbed single needle machine with a vertical material trimmer, suitable for car interior sewing

All machines are equipped with direct drives and DAC control.

WE INVITE YOU TO OUR EXPOSITION !
